I can hardly believe it is March. I know many of us are feeling fatigued and restless with the way we have had to live over the past year. I encourage you to remember that as we head towards the spring, think about the idea of rebirth the season brings us. We are also making significant strides in the fight against COVID-19. I believe good things are on the horizon for us all, we just have to hang in there a little longer.

We have no new cases of COVID-19 in residents or team members. As planned, we opened communal dining yesterday. It was a bit slow, as residents have come to enjoy meals delivered to their apartment. We know as everyone gets more comfortable, the dining room will be a luxury we will all enjoy.

The next milestone we hope to reach is the reopening of our salon. If we can keep COVID-19 out of the community, we will open the salon on March 16.
