

Date: April 21, 2021

To: All residents, families & team members

From: Cherie Powers, Executive Director

Subject: Path Forward Community Update

I am happy to report everyone at The Legacy remains free from COVID-19. The team member who tested positive on vacation remains in quarantine and will return to the community in the coming weeks.

I know we are all suffering from pandemic fatigue and want this to be over as soon as possible. As of Monday, every American over the age of 16 is eligible for the COVID-19 vaccine. All residents and most of the team at The Legacy have been vaccinated and nobody has experienced adverse effects. We encourage all of you to consider getting the vaccine to help us return to normal faster.

Whether you receive the vaccine or not, it is important to continue doing everything we know works to stop the spread of the virus: wear a mask, social distance from those who live outside of your household and wash your hands often (or use hand sanitizer when soap and water are not available).

Easing up on restrictions has proven beneficial so far, as our residents appear happier and are enjoying seeing their family and friends. They are also enjoying being able to visit the Hair Salon, having activities and attending church services together.

As you consider visiting The Legacy, please keep in mind that we **require** everyone to schedule a time to visit instead of just stopping by. If you have trouble with scheduling, feel free to contact us at 540-885-5454 for assistance.
