

**Date: April 27, 2021**

**To: All residents, families & team members**

**From: Cherie Powers, Executive Director**

**Subject: Path Forward Community Update**

I am happy to report The Legacy at North Augusta remains free from COVID-19. Our team member who was traveling has returned and tested negative before reentering the country and received a second negative test upon returning to the community.

Some of our sister communities are experiencing small outbreaks again. We are grateful everyone in our care remains healthy; however, it is a good reminder that COVID-19 is still a very real threat to communities like ours, and I appreciate everyone's diligence and compliance in keeping The Legacy free from the virus.

If you would like to be vaccinated and are looking for an appointment, Augusta Health is taking appointments here: <https://vaccinate.augustahealth.com/vaccine-appointments/>. Additionally, many pharmacies in the area are carrying the vaccine including Walgreens, Martin's Pharmacy and Walmart.

As you consider visiting The Legacy, please keep in mind that we **require** everyone to schedule a time to visit instead of just stopping by. If you have trouble with scheduling, feel free to contact us at 540-885-5454 for assistance.
