

Date: October 14, 2020

To: All residents, families & team members

From: Cherie Powers, Executive Director

Subject: Path Forward Community Update

This week I learned one team member has tested positive for COVID-19, and another is out with symptoms of COVID-19. I do not believe this is a reason to panic as both team members have been away from the community and did not exhibit any symptoms while they were here.

In response and at the advice of our Medical Director, we proactively decided to move the community back to pre-phase one, and everyone has been quarantining. We have deep cleaned common areas and thankfully, nobody else is showing symptoms. After contact tracing, we do not believe there is anyone who needs to be tested as a precaution.

Next week, we will gradually start to ease restrictions again. We will welcome visitors for through-the-glass visits on the porch (while your loved one is in the Dixie Theater). We will also resume small group activities. Residents will also be able to enjoy the walking paths around the community while adhering social distancing and wearing a mask. We will also begin to provide transportation to essential medical appointments.

In the meantime, virtual visits can be scheduled here:

All updates can be found online at <https://www.thelegacyatnorthaugusta.org/pathforward>

As always, we thank you for your continued patience, support and prayers. We pray you are staying well during this time.
